Terms and Conditions

Plant Care: Plant Material has a one year guarantee as long as proper care is given. Plant material will need 1 inch of water per week as proper care and responsibility of the customer. Proper care will include any needed fertilization and pest control necessary to maintain healthy growth.

Irrigation: Materials installed by us are warranted for 1 year from the date of installation. Labor to repair or replace the components of the sprinkler system is covered for a period of one year from installation. This warranty includes all system components installed by Sonlight Irrigation and Lighting, including the controller, valves, sprinkler heads, pipe, and backflow device. The warranty includes only defects in materials or workmanship and expressly excludes improper usage of the system, damage caused by freezing, fire, flooding, any other natural phenomena, or damaged by any other cause. Any modification or repair of the system by any other company than Sonlight Irrigation and Lighting voids this warranty. This warranty expressly excludes the cost of testing backflow device as may be required by water providers after initial inspection at installation and clogging of system components due to debris in the water supply.
